

Vacancy: Senior Assistant Accountant

Are you an experienced accountant with an interest in Tech and the desire to become part of THE accountancy firm of the future? Look no further, you and JOINSON&SPICE might be the perfect match...

Want to join our team?

As Senior Assistant Accountant, you will work closely together with our tech-clients.

You are part of our Audit-team and thoroughly understand the businessmodels of our clients.

You are very capable of finding your way within our clients automated processes. You apply external reporting to our the specific companies, a challenging job because of the technology nature of these companies. Obviously their technological/ automated processes are more than advanced.

You are the point of contact for our clients and you make it your goal to help them understand their numbers too.

Besides this you are always thinking of new ways to use the data provided.

You love to work in small teams

Our team exists of 12 motivated professionals that are looking forward to welcoming you!

Ambitious mindset

Self-development is very important to us and to you. You want to keep learning and are always challenging yourself!

Masters Degree

You are studying or have finished your study for RA or a related masters degree (like Economics and Business) and have 3-5 years of work experience in a similar job.

No work experience yet?

Working with huge piles of paper is not your thing

Instead you love to work in the cloud. Because in our paperless office at Kraanspoor in Amsterdam, we automate as much as we can!

Programming

In R and Phyton? Completely your thing. Besides that you have an analytical mindset and you are great with numbers.

Love for tech

You are interested in IT and have know-how of automated processes and data analyses.

What we have to offer!

We want all our employees to be happy! That is why we offer them working conditions that suit the job.

- **Salary.** As Senior Assistant Accountant we offer you a salary between €3.400 – €4.900 gross salary per month based on a 40-hour work week.
- **Secondary working conditions.** Laptop, phone, travel allowance, pension plan and 27 holidays per year, to name a few..!
- **Time and space for self-development.** We offer you different ways and courses to continuously develop your knowledge and skills.
- **A professional and motivated team.** Where collegial involvement is key. Because, working is more fun when it's done together!

We value culture over experience.

This is why we always start with getting to know you and find out if you're the right fit for our team and clients. Good to know is that we LOVE tech and data. We're on a mission to change our sector from the inside out.

A diverse team

We're based at NDSM in Amsterdam. We are a small diverse team (avg. age 34) with backgrounds in Accounting and Finance, but also in Industrial Design, Media, IT, Hospitality and even Physiotherapy.

Innovative & experimental

At JOINSON&SPICE we live and breathe Technology. We clearly see the added value of tech and continuously seek a deep understanding of our Tech-clients. We have built our own Data Warehouse and we improve our processes on a daily basis. Every day we ask ourselves; how can we work more efficiently?

Focus on personal growth

We are a small team with big dreams: No Big 4 mentality, no late working hours and we deeply value a healthy work/life balance ('Being in balance' is one of our core values for good reason)! Working at JOINSON&SPICE means you will have the responsibilities you deserve and can handle. We invest in our team because we believe in self-development and growth. Your development is an important part of your journey with us, we always encourage you to expand your knowledge by following courses and training-programs. We cover the costs of your education (for example: programming courses).

We give you time and space to improve your (programming)skills together with a motivated and fast-learning team of experts.
